

Driver SMS & Location Consent

Authorization to send operational dispatch text messages and, with the driver's consent, to collect the driver's device location for load tracking via the DispatchInAI platform (<https://dispatchinai.com/sms-consent>).

DispatchInAI is a product of inAI LLC, the company that operates the platform. The dispatch company named below is the substantive sender of these messages and directs the content of what is sent; inAI LLC operates the DispatchInAI platform and provides the toll-free messaging number used to deliver the messages.

Business address

Consent to text messages

By signing below, I authorize the dispatch company named above to send me operational text messages (SMS) at the mobile phone number I provide, using the DispatchInAI platform (operated by inAI LLC). I understand that these messages will relate only to freight loads I am being offered or am hauling for that company, including load dispatch details (pickup and delivery), cancellation or reassignment notices, and freeform messages tied to a specific load. I understand that consent is not a condition of employment or contracting and that message and data rates may apply per my mobile carrier plan. I can opt out at any time by replying STOP to any message; I can text HELP for assistance.

Consent to location sharing

I also authorize the dispatch company named above to collect and use my device location for operational load tracking through the DispatchInAI driver web app. I understand that:

- My location is collected only when I take an action in the app — when I tap a load-status button (accepted, in transit, or delivered) — and when I respond to a dispatcher's request to share my current location.
- My phone will ask my permission before any location is collected, and no location is collected unless I allow it on my device. There is no continuous or background tracking of my location.
- My shared location is used only by the dispatch company's dispatchers for load tracking, is kept with the load record, and is never sold or shared with third parties for marketing.
- I can withdraw this consent at any time by declining the location permission on my device, by not using the app, or by notifying the dispatch company, and doing so will not affect my ability to receive or accept loads.

What you will receive

Typical message volume is 5–25 SMS per week, depending on load activity. Messages identify the sender (the dispatch company or DispatchInAI) and, where required, include "Reply STOP to opt out. Reply HELP for help. Msg & data rates may apply." Mobile information and location are used only to deliver these operational services and are not shared with third parties or affiliates for marketing or promotional purposes. See the privacy policy at <https://dispatchinai.com/privacy>.

Driver

Driver full name (print)

Date

Mobile phone (with country code)

Carrier (optional)

Driver signature

Date signed

Dispatcher attestation

The dispatcher named below witnessed this consent and will record it in the DispatchInAI portal with the driver's name, mobile number, and the date and time of consent.

Dispatcher name (print)
